

Shafran Gastroenterology & Research Center

Ira Shafran, MD

OUR PRACTICE: Dr. Shafran is a Board-Certified Gastroenterologist practicing in the Orlando area since 1979. He treats a wide variety of gastrointestinal diseases, skilled in both diagnostic medicine and endoscopic procedures. Early in his career, Dr. Shafran discovered a special interest in the diagnosis and treatment of Inflammatory Bowel Disease (IBD), Crohn's Disease & Ulcerative Colitis, and over the past 38 years this interest has evolved into a passion to find the "Cause and Cure" for IBD. He is proud to be the top clinical IBD researcher in Central Florida, and has developed an exceptional Clinical Research Program, and IBD Center of Excellence, offering all qualified patients access to therapies and treatments they may not otherwise be able to receive. "We can offer IBD patients not only conventional therapies, but also opportunities to participate in novel treatment protocols that are highly individualized, patient-centered approaches that look at IBD differently," Dr. Shafran says. His certified Clinical Research Team is composed of an ARNP and three Registered Nurses who share his vision, integrity and compassion. In addition to running industry-sponsored, FDA-approved Clinical Trials, and participating in the majority of the pivotal IBD drug trials and Investigator Initiated

Studies, Dr. Shafran speaks, publishes and presents medical findings both nationally and internationally. **OUR OFFICE:** The office environment is somewhat less traditional than most medical practices today. "I strongly believe that education, goodwill and confidence, together with a warm and friendly environment, are key factors in getting and keeping patients well." Butterflies adorn the walls and ceiling, becoming an unmistakable symbol of change and wellness. The phones are answered by caring human voices, and the small, but efficient team is helpful and responsive. If you are lucky, you might even be greeted by a friendly pet or two! **FOR MORE INFORMATION:** To learn more about Dr. Shafran and the Shafran Gastroenterology Center, along with Crohn's or Colitis Clinical Trial Research, please contact us.
